Visions of Vinyl

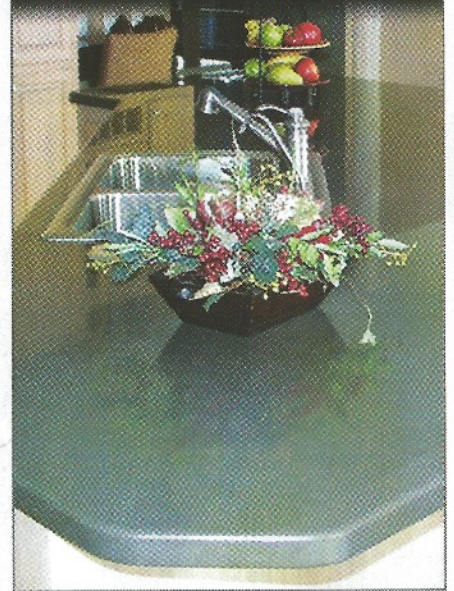

With a backing made of 35 percent recycled materials, Luxica Envynyl flooring is completely recyclable, the maker says. The low-VOC vinyl tile is non-allergenic, will not promote microbial or fungal growth, and comes in several colors, textures, and patterns. To Market. 866.772.4772. www.tomkt.com. **Circle 170**

Waste Not

shetkaStone is made from pre- and post-consumer non-toxic waste paper molded to form countertops and other surfaces that have the appearance of limestone, soapstone, or granite.

Fresh Finish

Water-based and solvent-free Aqua Resin stain finish No. 33 can be used for interior and exterior wood applications. It is fade-resistant and dries in less than 30 minutes, the maker says. BioShield Paint Co. 800.621.2591. www.bioshieldpaint.com. **Circle 171**

Rooftop Garden

Based on a combination of several waterproofing layers, filter fabrics, and root-blocking underlayments, the Henry 790-11 Green Roof system allows vegetation of many types to be planted on sloped and pitched rooftops. Henry Building Envelope Systems. 800.486.1278. www.henry-bes.com. **Circle 173**

Protective Treatment

Utilizing a sodium silicate technology that surrounds wood fibers with layers of glass, TimberSIL treated wood is non-corrosive; non-carcinogenic; free of heavy metals; fire-retardant; and protected against rot, decay, termites, mold, and mildew, the maker says. Timber Treatment Technologies. 866.318.9432. www.timbersil.com. **Circle 174**
